

ACVATIX™

Electromotoric actuators for valves

SAT..

Electromotoric actuators with 5.5 mm stroke and 300 N positioning force

- SAT31.. Operating voltage AC 230 V, 3-position control signal
- SAT61.. Operating voltage AC 24 V / DC 24 V, position signal DC 0...10 V / DC 4...20 mA / 0...1000 Ω
- For direct mounting on valves; no adjustments required
- Manual adjuster, position indicator and status indication per LED
- Optional functions with auxiliary switch

Application

For the operation of Siemens 2-port and 3-port valves:

- Type series VVG549..
- 5.5 mm stroke

As control or shutoff valves in heating and ventilation systems.

In conjunction with the ASK30 mounting kit, the former Landis & Gyr-valves with 4 mm or 5.5 mm stroke can also be operated: X3i.., VVG45.., VXG45.., VXG46.., VVI51...

Functions

Function	Description	Type
3-position control	A 3-position signal drives the actuator via connection terminals Y1 or Y2. The desired position is transmitted to the valve.	SAT31..
Modulating control	The modulating positioning signal drives the actuator steplessly. The positioning signal range (DC 0...10 V / DC 4...20 mA / 0...1000 Ω) corresponds in a linear manner to the positioning range (fully closed...fully open, or 0...100 % stroke).	SAT61..
Positioning signal and characteristic changeover	Setting the DIL switches. Factory setting SAT...: <ul style="list-style-type: none"> • Characteristic curve: lin = linear (switch at "ON") • Positioning signal: DC 0...10 V (switch at "OFF") 	
Position feedback U	Signal, returned to acquire the position via an input.	
Calibration	Conduct during initial commissioning. The actuator deploys to the top and bottom end position; measured values are saved.	
Detection of valve seat	Actuators have power-dependent seat detection. After calibration, the exact valve stroke is filed in the actuator's memory.	
Foreign body protection	After detection of clogging, 3 attempts are made to overcome clogging. If the attempts made are unsuccessful, the actuator continues to follow the positioning signal within the restricted range only (LED continues to blink red).	
Forced control Z (Z mode)	Forced control serves for overriding automatic mode and is implemented in the structure.	

Types

Type	Stock no.	Operating voltage	Positioning signal	Power consumption	Posit. time	Spring return function/time	Manual adjustment	Position feedback	Remark	
SAT31.008	S55158-A119	AC 230 V	3-position	5.0 / 2.5 VA ⁴⁾	8 s	No	Yes	-	1)	2)
SAT31.51	S55158-A120			5.5 / 3.2 VA ⁴⁾	15 s	Yes / <8 s ⁵⁾	No			
SAT61.008	S55158-A117	AC/DC 24 V	DC 0...10 V	7.1 / 4.6 VA ⁴⁾	8 s	No	Yes	DC 0...10 V		3)
SAT61.51	S55158-A118		DC 4...20 mA 0...1000 Ω	6.4 / 4.8 VA ⁴⁾	15 s	Yes / <8 s ⁵⁾	No			

¹⁾ Cable gland: M16, M20 (ISO50262)

⁴⁾ Second value: Power consumption at normal position

²⁾ Approbation: CE

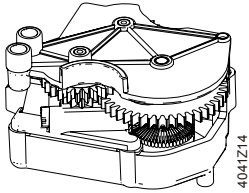

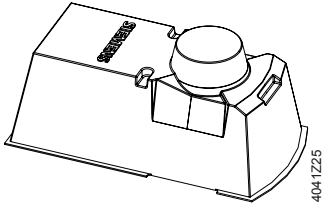

⁵⁾ Spring return time at low temperature is slightly longer

³⁾ Approbation: CE and UL (only 24 V)

Delivery

Actuator, valve and accessories are packed and supplied as separate items.

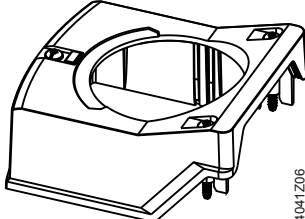

Accessories

Electric accessories	Mechanical accessories
Auxiliary switch ASC10.51 	Weather shield ASK39.2 

Ordering (Example)

Notes

Safety

	<p>⚠ CAUTION</p>
	<p>National safety regulations Failure to comply with national safety regulations may result in personal injury and property damage.</p> <ul style="list-style-type: none"> Observe national provisions and comply with the appropriate safety regulations.

Engineering

SAT31..

3-position actuators must have their own controller, see "Connection diagrams".

SAT61..

Up to 10 actuators can drive in parallel on a controller output with a rating of 1 mA. Modulating actuators have an input impedance of 100 kΩ.

Installation

Mounting positions

¹⁾ Requires the weather shield ASK39.2. Degree of protection of housing IP54 remains unchanged.

Maintenance

The SAT.. actuators are maintenance-free.

Mounting:

- Do not touch the valve coupling if the components (valve/pipes) are hot
- If necessary, disconnect electrical connections from the terminals

The actuator must be correctly fitted to the valve before recommissioning.

Disposal

	 WARNING
	<p>Tensioned return spring Opening the actuator housing can release the tensioned return spring resulting in flying parts that may cause injury.</p> <ul style="list-style-type: none"> • Do not open the actuator body.

	<p>The device is considered electrical and electronic equipment for disposal in terms of the applicable European Directive and may not be disposed of as domestic garbage.</p> <ul style="list-style-type: none"> • Dispose of the device through channels provided for this purpose. • Comply with all local and currently applicable laws and regulations.
---	--

Warranty

Technical data on specific applications are valid only together with Siemens products listed under "Equipment combinations". Siemens rejects any and all warranties in the event that third-party products are used.

Note

When using the actuators in connection with valves of other manufacture, correct functioning must be ensured by the user, and Siemens will assume no responsibility.
